

Steel serving trolley h21542

Stainless steel serving trolley with 5 shelves, 860x540x1540 mm. Professional structure with 130 kg capacity and integrated braked wheels.

The serving trolley **h21542** is an essential tool for logistics management within professional kitchens, canteens, and hospitality facilities. Designed to optimize the transport of food, tableware, and equipment, the trolley utilizes vertical development to maximize load capacity without excessively obstructing walkways. The structure is made entirely of **stainless steel**, a material choice that ensures not only long-term durability against mechanical wear but also total compliance with hygiene and health regulations thanks to its ease of sanitization.

Technical features

- **Material:** high-resistance stainless steel
- **Configuration:** 5 spacious shelves
- **Distance between shelves:** 25.5 cm to facilitate the insertion of trays and containers
- **Overall dimensions:** 860 x 540 x 1540 mm (WxDxH)
