

Stainless steel serving trolley h15222

Professional S/S 201 stainless steel serving trolley with 2 shelves, dimensions 86x54x94 cm and load capacity of 30 kg per shelf.

The **h15222** serving trolley is professional equipment designed to optimize internal logistics in kitchens, canteens, and dining rooms. The structure is entirely made of **S/S 201 stainless steel**, a material selected to combine the necessary mechanical strength with resistance to the frequent cleaning cycles typical of HoReCa contexts.

The two-level design allows for the movement of bulky loads or stacks of dishes with extreme fluidity, reducing the operator's physical effort. The handling system rests on four multi-directional wheels, configured to guarantee stability even at full load, while the integrated parking system ensures safe locking during loading and unloading phases.

Technical features

- Construction material: S/S 201 stainless steel
- Total dimensions: 86 x 54 x h. 94 cm
- Shelf usable dimensions: 85 x 53 cm
- Number of shelves: 2
- Maximum load capacity per single shelf: 30 kg
- Wheels: 4 swivel wheels (2 equipped with foot brakes)
