

Case transport trolley h6207

Painted steel hand truck with 100 kg capacity, 150 mm rubber wheels and 42x15 cm plate. High maneuverability at full load. This **hand truck** is designed to optimize manual handling operations within warehouses, points of sale and logistics environments. Made with a robust **tubular and painted steel sheet** structure, the trolley combines mechanical resistance and operational agility. The particular construction technique ensures that the tool remains extremely manageable and easy to guide even when stressed to its maximum nominal capacity.

The **sheet metal toe plate** has been sized to facilitate quick insertion under packages, allowing for fast collection of parcels without excessive physical effort. Stability during transport is guaranteed by high-sliding rubber wheels, ideal for different types of industrial flooring.

Technical features

- **Type:** Manual hand truck
- **Maximum capacity:** 100 kg
- **Frame material:** Tubular and painted steel sheet
- **Rolling system:** Rubber wheels with 150 mm diameter
- **Load plate dimensions (toe plate):** 42x15 cm
- **Overall dimensions:** W 52 cm x H 95 cm
