

Cabinet for two fire extinguishers h21416

Double fire extinguisher cabinet in RAL 3000 red painted steel, 550x220x640 mm. Accommodates two 6 kg units with safety edges and inspection windows.

The **double fire extinguisher cabinet** is a professional solution designed for the protection and wall-mounting of fire safety equipment in commercial and industrial environments. Entirely made of **high-quality steel** with a RAL 3000 red epoxy powder finish, the structure ensures effective protection against impacts and dust. The design focuses on **operational safety**: the rounded edge finish eliminates any sharp edges, preventing risks of cuts or injuries during maintenance or in case of emergency.
