

Metal fire extinguisher cabinet h21411

Cabinet for 6 kg fire extinguishers in Red RAL 3000 painted steel, 325x200x602 mm, equipped with a breakable plate for quick emergency access.

This **protection cabinet** for fire extinguishers represents a reliable solution for the safe housing of fire safety equipment in civil, commercial, and industrial contexts. Made of **high-quality steel** with anti-corrosive treatment, the structure ensures high mechanical resistance and protects the device from impacts, dust, and environmental agents. The design is optimized to guarantee an **immediate intervention** in case of emergency thanks to the breakable plate system, essential for bringing public and private environments up to standard.
