

Cast iron gully h638_145

Spheroidal cast iron road gully. Class: D400. External dimensions: 640 x 940 mm.

The **flat ductile iron gully** is an essential urban furniture component to ensure citizen safety and to correctly drain rainwater from the road to the sewer networks. The product features a **rectangular frame** with a **continuous external perimeter flange** for a larger support base and better anchoring to the foundation. The product is equipped with a **grating with high drainage capacity** and a **rectangular cover**.

Technical features:

- Material: cast iron
- External dimensions: 640 x 940 mm
- Clear opening: 544 x 844 mm
- Height: 80 mm
- Drainage area: 20.57 dm²
- Weight: 72 kg
- Class: D400
- Frame shape: rectangular
- Cover shape: rectangular
- Breaking load exceeding 400 kN
- Grating with high drainage capacity
- Frame with external perimeter flange
