

Cast iron manhole cover 69x69 cm h638_87

Cast iron manhole cover with inspection hatch. Class C250. Dimensions: 690x690 mm.

Ductile iron manhole cover of **square shape**, with **inspection hatch**. Produced according to the latest edition of the UNI EN 124 loading class C250 standard, by an **ISO 9001:2015 certified company**, consisting of a **square-shaped frame** both at the base and at the top corresponding to the road surface level, equipped with an **external perimeter flange** appropriately shaped and rounded at the corners to achieve a larger support base and allow better anchoring to the foundation; reinforcement ribs, internal "U" seat to achieve odor tightness by filling with sand and/or equivalent materials in conjunction with the covers. Double cover, the central one of which is suitable for inspection, equipped with closed-bottom slots suitable for housing the lifting key; lateral passing screw for lifting the central cover, space for inserting any lettering and/or logos (e.g. contracting authority + etc.); **anti-slip reliefs** appropriately distributed for the complete drainage of runoff water.

Technical features:

- Material: ductile iron
- Odor-tight
- Square cover
- Square frame
- External dimensions: 690x690 mm
- Clear opening: 560x560 mm
- Height: 80 mm
- Weight approx. 55 kg
- Inspection opening: 302x302 mm
- Breaking load > 250 kN
- Class: C250
