

Cast iron road manhole cover 40x40 cm h638_84

Cast iron manhole cover, C250 load class. Dimensions: 400x400 mm.

Ductile iron manhole cover, square in shape, produced according to the latest edition of the **UNI EN 124** standard. Ideal for **C250 load class** (for use in car parks, yards, industrial sites, and slow-moving traffic areas) by an **ISO 9001:2015 certified** company. Consisting of a frame, **Square-shaped frame** both at the support base and at the top corresponding to the road level, equipped with a **suitable external perimeter flange**, continuous on all four sides, appropriately shaped and **beveled at the corners** to obtain a larger support base and allow better anchoring to the foundation also through holes useful for fixing with anchor bolts; reinforcing ribs; internal "U"-shaped seat to achieve odor tightness by filling with sand and/or equivalent materials in coupling with the cover; anti-tilt interlocking for unique coupling with the cover. **Square-shaped cover** equipped with a **blind-bottom slot** suitable for the lifting key; surface recess for coupling with the anti-tilt plate present on the frame for unique positioning of the cover in its seat; space for inserting any inscriptions and/or logos (e.g., contracting authority + etc.); maximum interlocking depth; identification detail of the external frame dimensions expressed in cm; non-slip embossing uniformly distributed for the complete drainage of runoff water.

Technical features:

- Material: cast iron
- Frame shape: square
- Square cover shape
- Automatic closing, Airtight
- External dimensions: 400x400 mm
- Clear opening: 290x290mm
- Height: 30 mm
- Weight: approx. 10.5 kg
- Class C250
