

Catering service trolley h464_305

Black polypropylene service trolley, 107x52x96 cm. 3 shelves with 200 kg capacity, ideal for intensive handling in the HoReCa sector.

The **h464_305** service trolley is a professional solution designed for the optimization of workflows in restaurant, hotel and catering contexts. Made of **high-density polypropylene**, this tool meets the need to transport heavy loads such as stacks of plates, Gastronorm trays and kitchen equipment, drastically reducing staff fatigue and speeding up clearing or dining room service operations.

The structure is engineered to withstand the mechanical stresses typical of frantic work environments, while maintaining a remarkable structural lightness. The three large shelves offer a stable support surface, while the movement system on four wheels ensures smooth gliding even at full load.

Technical features

- **Total dimensions:** L.107 x D.52 x h.96 cm
- **Material:** Impact-resistant polypropylene
- **Configuration:** 3 spacious shelves
- **Load capacity:** Maximum capacity 200 kg
- **Operating weight:** 16 kg
- **Movement system:** 4 wheels (2 swivel and 2 equipped with pedal brakes)
- **Color:** Professional black
- **Assembly:** High-resistance easy system
