

## Cell phone locker with 10 doors h1033\_08

1x10 compartment column cell phone locker in 8/10 mm steel. Padlockable lock for each compartment, wall mounting. Dimensions W20xD20xH155 cm.

The **H1033\_08 cell phone locker with 10 doors** is a compact and secure solution for storing smartphones and personal belongings in corporate, industrial, gym, school, and changing room environments. Designed in a single-column configuration with 10 levels, it offers 10 individual compartments in a reduced space, optimizing the organization of common areas.

Made of **8/10 mm DC01 – UNI EN 10130 steel sheet**, it guarantees structural solidity and durability over time. The finish is achieved through **epoxy-polyester powder coating**, following a phosphodegreasing treatment, for effective protection against wear and corrosion. Each compartment is equipped with a **padlockable lock**, offering security and autonomous access management.

The locker is supplied with a **wall mounting kit**, ensuring stability and safety during installation. The **12 cm steel feet**, matching the structure, ensure greater hygiene and ease of cleaning under the base.
