## Certified fireproof hotel free-standing safe h3133

Hotel safe with S2 EN 14450 certification. Double-bitted key security system. 1 adjustable internal shelf. Dimensions: W 45 x D 38 x H 33 cm.

The **professional hotel safe** is a high-security device designed to offer superior protection against theft and fire. Featuring **S2 EN 14450 certification**, the structure is made of double walls with the insertion of a **special fireproof ceramic fiber material** between the body walls and inside the lock panel. The locking system relies on a **6-lever double-bitted security key lock**, A2P certified and compliant with the EN 1300 standard. This model meets the most stringent security requirements thanks to the 6 mm door thickness and the presence of an adjustable internal shelf for optimal management of the 28-liter space.
