

Bathroom bin 3 lt in satin stainless steel h4043

Bathroom bin with pedal operation made of stainless steel. Satin steel finish. Capacity: 3 lt.

This bathroom bin is suitable for installation in the bathrooms of facilities characterized by **medium traffic**. It is ideal for restaurants, bars, pizzerias, offices, etc.

The product is equipped with a **silent lid** with an anti-odor system to prevent unpleasant odors from escaping.

The internal container is instead made of polypropylene and has a practical **metal handle** to facilitate transport.

The pedal is made of non-slip black plastic material. The **non-slip base** is also in black plastic and insulates the bottom of the bin, protecting it from moisture.

Technical characteristics:

- Dimensions: Ø17 x H25.5 cm
- Material: satin stainless steel
- Lid with pedal opening
- Non-slip base
- Transport handle
- Capacity: 3 lt
- Internal container with polypropylene handle
