## Chafing dish for restaurants h24256

Chafing dish for restaurants, made of polished stainless steel and suitable for GN 1/1 pans 65 mm deep.

The chafing dish is an ideal item for use in restaurants, hotels and catering businesses that need to heat dishes to serve them at the table or buffet as they appear in the pot or pan in which they were cooked.

In catering services, the chafing dish will allow for preparing dishes in advance and at the same time presenting them to guests as if they were fresh from the oven.

The **chafing dish** is made of **polished stainless steel** and is designed for a **GN 1/1 pan** 65 mm deep.

The product operates using **fuel** (not included) which can be inserted into the **two** dedicated **holders**.

**Handle and lid** make the chafing dish practical and functional.
