

Changing table cabinet for nursery school h908_42

Professional changing table for nurseries h908_42 in wood and faux leather. Dimensions W120xD80 cm, equipped with doors and open compartments for hygienic storage.

The **h908_42 changing table cabinet** represents a complete workstation, designed specifically to meet the hygiene, ergonomics, and organization needs of nurseries and childcare facilities. The structure combines a solid wood base with a top changing surface optimized for intensive use in professional contexts.

Space organization is the strength of this model: the **two side doors** allow for orderly storage of diaper supplies and linens, while the **central open compartment** with adjustable shelves and internal dividers allows cleaning products and accessories to be always at hand. The changing surface is covered in **padded faux leather**, a material chosen to ensure maximum comfort for the child and total impermeability to liquids, facilitating daily sanitization operations.
