

Changing table for nursery school h172_165

Changing table for nursery school in beech melamine. Dimensions 80x50x80 cm, 2 shelves, foam mattress, ABS and rubber edges for safety.

Changing table specifically designed for nursery school environments, intended to facilitate child-changing operations in conditions of **maximum comfort and safety**. The structure in **18 mm thick beech melamine** guarantees stability and durability, while the **beech support feet** ensure a firm anchoring to the floor. The design includes **two useful shelves** for the organization and storage of materials and accessories needed for changing operations, such as wipes, diapers, creams, and soaps.

The **changing surface is covered with a foam mattress coated in synthetic leather**, which is easy to sanitize and resistant to wear. The **ABS and rubber perimeter edges** eliminate sharp corners and offer additional protection, a fundamental element in environments frequented by small children.

Technical features

- Dimensions: W. 80 x D. 50 x H. 80 cm
- Structure material: 18 mm thick beech melamine
- Feet: solid beech
- Protection edges: ABS and rubber
- Number of shelves: 2
- Changing surface: foam mattress covered in synthetic leather
