

Changing unit with pull-down stairs for nurseries h979_02

Professional changing unit h979_02 in melamine with integrated pull-down stairs, braking wheels and large storage compartments for nurseries and schools.

The **h979_02 changing unit** represents an advanced technical solution for setting up changing areas in **nurseries, preschools, and baby-friendly accommodation facilities**. Designed with a specific focus on the **ergonomics of educational staff** and child safety, it integrates mobile stairs that promote the child's autonomy and reduce physical stress on the operator resulting from repeated lifting.

The load-bearing structure is made of **19 mm high-density melamine panel** (three-layer chipboard), finished with **anti-shock ABS edges** to prevent injuries. The surface is coated with decorative paper impregnated with melamine resins, ensuring a water-repellent surface that is scratch-resistant and easily sanitized with professional detergents.

Technical characteristics

- **Structure:** 19 mm melamine panel with ABS peripheral edging.
- **Facilitated access:** 4-step pull-down stairs with rear reinforcement and fixing via high-resistance steel brackets.
- **Upper compartment:** Housing for changing mat (not included) with useful dimensions 860 x 730 x 160 mm.
- **Closing system:** Doors with super-angular hinges equipped with Ø35 mm anti-trapping cup.
- **Components:** 96 mm ergonomic zamak handles and leveling pads on the stairs.
- **Internal storage:** Adjustable shelf in 3 different positions with Ø20 mm bush supports.
- **Mobility:** 4 polyamide wheels Ø65 mm with integrated brake; dynamic load capacity 50 kg per wheel.
- **Total dimensions:** W 900 x D 750 x H 980 mm.
- **Certifications:** Production processes compliant with ISO 9001, 14001 and 14006.
