

## Checked physiotherapy mirror 80 x 120 cm h731\_55

Checked mirror for rehabilitation exercises. Dimensions: W. 80 x h. 120 cm.

Perfect solution to help patients correct and improve their posture, the **physiotherapy mirror** is equipped with a **grid with 10 x**

**5 cm rectangles.** The structure consists of a **mirror** glued with an **accident-prevention adhesive film** onto a **compact polystyrene sheet** and an **MDF back cover**. Framing it all, an **aluminum profile** that guarantees maximum lightness. Thanks to the presence of the safety adhesive film, in the event of accidents and breakage, the mirror remains adhered to the agglomerated layer to which it is anchored. This makes this product **highly safe**.

**Technical features:**

- Dimensions: W. 80 x h. 120 cm
- Type: checkered
- Grid rectangle dimensions: 10 x 5 cm
- With accident-prevention adhesive film
- MDF back
- With aluminum frame
- Fixing: on large surfaces or on a trolley (not included)
