

## Chick spring rider h350\_288

Chick-shaped spring rider made of okoumé mahogany plywood (95x25x90 cm), EN 1176 certified with finger anti-pinch device. The **h350\_288** spring rider is a figurative play equipment designed for installation in public and private play areas. The chick-shaped structure combines an ergonomic design with high safety standards, offering a controlled rocking experience for preschool and school-age children. Made with weather-resistant materials, the device solves the need for durable urban play furniture that complies with the strict regulations in force.

## Technical features

- **Body material:** Okoumé mahogany plywood (25 mm thickness) with phenolic bonding.
- **Finish:** Coloured impregnation and non-toxic water-soluble wax-based paints.
- **Grip components:** High-resistance coloured nylon handles and footrests.
- **Rocking system:** Oven-painted steel spring with integrated finger anti-pinch device.
- **Hardware:** 8.8 galvanized steel bolts with self-locking nuts and nylon nut caps.
- **Overall dimensions:** 95 x 25 x h 90 cm.
- **Space requirements:** Impact area 9 sqm (Minimum space 300x300 cm).
- **Safety:** Fall height 55 cm; EN 1176 certification (TÜV SÜD).
- **Target:** Recommended age of use 3-8 years; capacity 1 user.
- **Installation:** Estimated assembly time approximately 1 hour.
