

Children's balance path h735_07

Children's balance path. Composed of 16 bricks, 32 suction cups, 24 connection pins.

Children's balance path, ideal for use in kindergartens. This is a set consisting of **16 interconnectable bricks**, specifically designed to create **multi-level step paths**, aimed at performing **psychomotor activities for children**. The bricks can be connected to each other via **connection pins** and ensure perfect grip on the ground thanks to the **suction cups** they are equipped with.

Technical features:

- Material: plastic
- Complies with UNI EN 71-1/2/3
- Kit consisting of: 16 bricks, 32 suction cups, 24 connection pins
