Children’s ball pit h999_49

Corner ball pit (190x40x15 cm) in high-density foam and antibacterial PVC. Safe, bite-proof and EU certified.

The **h999_49 children’s corner ball pit** is a motor-play structure specifically designed to optimize space within early childhood educational environments. Conceived for nurseries, kindergartens and play centers, this pit solves the need to set up a protected play area even in rooms with limited square footage, by efficiently exploiting the corners of the rooms. The load-bearing core in high-density foam guarantees stability and prevents fall-related injuries, while the external covering in PVC-coated polyester offers a soft, hygienic and bite-proof surface. Designed in full compliance with European safety regulations, it ensures a protected recreational and psychomotor context for young users.

Technical features

- **Structural format:** Corner
- **Internal material:** High-density foam (25 kg)
- **External covering:** PVC-coated polyester
