

Children's quad spring rider h763_03

Quad-shaped spring rider h763_03 in polyethylene and steel, 4-seater, EN 1176 certified. Ideal for playgrounds and play areas for children aged 1 to 12 years.

The **h763_03 spring rider** is a dynamic and inclusive piece of play equipment, designed to stimulate social interaction and motor coordination in children aged between 1 and 12 years. Featuring a design inspired by a **quad bike**, the equipment allows for the simultaneous participation of four users, making it a central element for socialization in any outdoor recreational area. The combination of technical materials such as high-density polyethylene, powder-coated steel, and EPDM inserts ensures long operational life and high structural resistance even in intensive use conditions.

Technical features
