

Children's toy kitchen h40206

Toy kitchen for children in melamine-faced wood conglomerate. With sink, burners, knobs and shelves. Dimensions 780x320x500/800 mm.

The **toy kitchen** with openable shelves is a very useful game for stimulating creativity and imagination. Furthermore, it allows for the strengthening of the child's communicative and emotional side, through social play.

The **structure** is made of **melamine-faced wood conglomerate**, with **lacquered MDF fronts** and **birch plywood worktops** 15mm thick, painted with non-toxic water-based paints.

To ensure children's safety, the **corners and edges are rounded**.

Technical features:

- Material: melamine-faced wood conglomerate
- Dimensions: 780x320x500/800 mm (WxDxH)
- As an option, it is also possible to purchase the refrigerator with internal shelves
- Refrigerator dimensions 400x300x1000 mm (WxDxH)
