Chocolate Multifunction 3 services h4947

Device multi-function three services: chocolate, milkshakes and whisk-vaporizer. Italian product

Device multi-function three services: chocolate, milkshakes and whisk-vaporizer. Italian product.

Multifunction device for the preparation of single doses of hot chocolate, milkshakes and hot water for tea, herbal teas and infusions.

This car is essential for all operators, using bags of cocoa flavored in different tastes, must prepare, from time to time, small amounts of product to meet customer demands.

The machine allows you to quickly mix with cold milk and without creating lumps, 1, 2 or 3 bags of cocoa, cook the mixture at the same time without having to move it on the coffee machine. In this way, in about 10 seconds, it is possible to realize a hot chocolate, thick and creamy.

The use of separate and whisk v aporizzatore instead allows the preparation of milkshakes or hot water for tea.
