

## Chrome-plated steel infusion pole h13\_105

Chrome-plated steel IV stand, adjustable height 160-210 cm, 2 hooks and 4 wheels. Lightweight and easy to handle for hospital and home care.

This IV pole is designed to provide stable and secure support during the administration of intravenous therapies, both in **hospital settings** and in the context of **home care**. The **chrome-plated steel** structure ensures durability and corrosion resistance, while the lightweight base with swivel castors allows for smooth and effortless transport between different patient environments. The telescopic adjustment system allows for quick height adaptation based on specific therapeutic needs and the patient's bed configuration.

## Technical features

- **Pole material:** High-resistance chrome-plated steel
- **Base and hooks material:** Impact-resistant plastic technopolymer
- **Number of hooks:** 2 independent hooks
- **Capacity:** 5 kg per single hook (Maximum total capacity 10 kg)
- **Height adjustment:** Telescopic system from 160 cm to 210 cm
- **Movement:** 4 swivel castors for 360° rotation
- **Total weight:** 2.9 kg
- **Classification:** Class I Medical Device
