

Chrome-plated steel tray rack trolley h712_52

Vertical tray rack trolley in chrome-plated steel for 15 GN 1/1 containers or 30 GN 1/1 trays (55x38x171 cm). High capacity, safety bracket, and Ø 12 cm wheels with bumpers.

The **professional high-capacity tray rack trolley** is the ideal solution for restaurants, canteens, and cooking centers needing to optimize space-saving vertical storage. Built with a sturdy **chrome-plated steel** structure, this model offers exceptional versatility: the runner configuration allows for accommodating up to **15 Gastronorm GN 1/1 containers** or, alternatively, up to **30 GN 1/1 trays**. Load safety during movement is guaranteed by a **safety anti-slip bracket**, which locks containers in place. Movement is handled by oversized 12 cm wheels equipped with anti-bump protections, designed to ensure smoothness and furniture protection even when fully loaded.
