

Church pew with seat and kneeler h1039_01

125 cm church pew in seasoned wood with straight seat and kneeler. 32 mm reinforced structure with non-slip rubber pads.

The **church pew with seat and kneeler** (model h1039_01) represents a piece of high-resistance artisanal craftsmanship, designed for the furnishing of places of worship and liturgical halls. Specifically created for **parishes, religious communities, ecclesiastical institutes, and sacred interior designers**, this furnishing element is aimed at those who require structures that are durable and stable over time. The system solves the operational problem of **structural wood movements and mechanical bending** due to intensive and prolonged use, thanks to an accurate process of seasoning, drying, and evaporation of the raw material. The pew, characterized by a straight seat and configured with a standard footprint designed to optimize the passage space between rows, is assembled using finger joints and special adhesives that guarantee a solid, single body without sagging.

Technical features

- **Total length:** 125 cm
- **Basic configuration:** complete with straight seat and kneeler
- **Material quality:** first-choice quality wood, seasoned, dried, and evaporated to avoid movement and deformation
- **Finished wood thickness:** 32 mm, uniformed through calibrating machine sanding
- **Joining technique:** finger-jointing of the boards and gluing with special high-strength adhesives
- **Assembly technique:** structural fastening performed with hardwood dowels
- **Structural reinforcement systems:** reinforcing crossbars positioned under the seat to avoid seat bending
- **Lower stiffening systems:** support side panel under the kneeler to counteract mechanical bending
- **Available aesthetic finishes:** available in different wood finishes
- **Floor protection:** non-slip rubber pads included at the base of the sides
- **Overall dimensions:** standard, developed beyond the space required for passage between one pew and another

Options available on request (subject to quotation)

- Bookrest shelf applicable to the back of the backrest
- Anatomical or semi-anatomical seat for greater postural comfort
- Personalized commemorative plaques made of brass
- Fixed padding on seats and/or backrest covered in cordura or skai (faux leather)
- Fixed or liftable padding on kneelers covered in cordura or skai (faux leather)
- Metallic bag hooks applicable to the structure
