

Church pew with straight seat 125 cm h1039_04

125 cm church pew in seasoned wood with straight seat and kneeler. 32 mm reinforced structure with non-slip rubber pads.

The **125 cm church pew with straight seat** (model h1039_04) represents a high-resistance artisanal cabinet-making product, designed for the furnishing of places of worship and liturgical halls. Specifically created for **parishes, religious communities, ecclesiastical institutes, and sacred interior designers**, this piece of furniture is aimed at those who require structures that are durable and stable over time. The system solves the operational problem of **structural wood movements and mechanical flexions** due to intensive and prolonged use, thanks to an accurate seasoning, drying, and evaporation process of the raw material. The pew, characterized by a straight seat and configured with a standard footprint designed to optimize the passage space between rows, is assembled using finger joints and special glues that guarantee a solid single body without sagging.

Technical characteristics

- **Overall length:** 125 cm
- **Basic configuration:** complete with straight seat and kneeler
- **Material quality:** first-choice quality wood, seasoned, dried, and evaporated to prevent movement and deformation
- **Finished wood thickness:** 32 mm, uniformed by calibrating machine sanding
- **Joint technique:** finger-jointing of the boards and gluing with high-strength special glues
- **Assembly technique:** structural fixing performed with hardwood pegs
- **Structural reinforcement systems:** reinforcement crossbars positioned under the seat to avoid seat flexing
- **Lower stiffening systems:** support side panel under the kneeler to counteract mechanical flexions
- **Available aesthetic finishes:** available in different wood finishes
- **Floor protection:** non-slip rubber pads included at the base of the sides
- **Overall dimensions:** standard, developed beyond the space necessary for passage between one pew and another

Optionals available on request (subject to quote)

- Bookrest shelf applicable on the back of the backrest
- Anatomical or semi-anatomical seat for greater postural comfort
- Customized commemorative brass plates
- Liftable kneeler with folding sides inside the pew to optimize space
- Fixed padding on seats and/or backrest covered in cordura or skai (imitation leather)
- Fixed or liftable padding on kneelers covered in cordura or skai (imitation leather)
- Metal bag hooks applicable to the structure
