

Church pew with straight seat 150 cm h1039_05

150 cm church pew in seasoned wood with straight seat and kneeler. 32 mm reinforced structure with non-slip pads.

The **church pew with straight seat 150 cm** (model h1039_05) represents a high-resistance piece of handcrafted cabinetry, designed for the furnishing of places of worship, basilicas, and liturgical halls. Specifically created for **parishes, religious communities, ecclesiastical institutes, and designers of sacred interiors**, this piece of furniture is aimed at those who require structures that are durable and stable over time. The system solves the operational problem of **structural wood movements and mechanical flexing** due to intensive and prolonged use, thanks to an accurate process of seasoning, drying, and evaporation of the raw material. The pew, characterized by a straight seat and configured with a standard footprint designed to optimize the passage space between rows, is assembled using finger joints and special glues that guarantee a solid, single body without sagging.

Technical features

- **Overall length:** 150 cm
- **Basic configuration:** complete with straight seat and kneeler
- **Material quality:** first choice and quality wood, seasoned, dried, and evaporated to prevent movement and deformation
- **Finished wood thickness:** 32 mm, uniformed by sanding with a calibrating machine
- **Joining technique:** finger-jointing of the boards and bonding with high-strength special glues
- **Assembly technique:** structural fastening performed with hardwood dowels
- **Structural reinforcement systems:** reinforcement crossbeams positioned under the seat to prevent flexing
- **Lower stiffening systems:** support side panel under the kneeler to counteract mechanical flexing
- **Available aesthetic finishes:** available in different wood finishes
- **Floor protection:** non-slip pads included at the base of the sides
- **Overall dimensions:** standard, developed beyond the space required for passage between one pew and another

Options available on request (subject to quotation)

- Bookrest shelf applicable to the back of the backrest
- Anatomic or semi-anatomic seat for greater postural comfort
- Personalized commemorative plaques made of brass
- Lifiable kneeler with folding side supports inside the pew to optimize space
- Fixed padding on seats and/or backrest covered in cordura or skai (synthetic leather)
- Fixed or lifiable padding on kneelers covered in cordura or skai (synthetic leather)
- Metal bag hooks applicable to the structure
