

Circular concrete planter h287_256

Circular planter made of concrete with a galvanized steel band. Dimensions: Ø93 x H.85 cm.

The design planter is ideal for furnishing urban areas such as historic centers, avenues and city streets in order to beautify these places and at the same time create delimiters for pedestrian areas. **The planter has a circular shape and is made of concrete.** It is possible to choose between two different finishes: **sandblasted concrete and concrete with marble grit.** **A galvanized steel band contributes to making the product more elegant.** The planter is ideal for outdoor use and thanks to the water-based **water-repellent treatment** it is extremely resistant to atmospheric agents.

Technical features:

- Material: concrete
- Available in different finishes
- Galvanized steel band
- Water-repellent treatment
- Dimensions: Ø 93 x H.85 cm
- Weight: 650 kg

INFORMATION

- **Height in millimeters** 850.000000
- **Planter material** cemento
- **Diameter** 930.000000
- **shape** round

Circular concrete planter h287_256

Length in millimeters: 407 mm

Depth in millimeters: 400 mm

Height in millimeters: 399 mm

Diameter: 575 mm

Shape: rotonda
