

## City cleaning trolley h951\_07

Large manual trolley with double bag holder and closed compartment for municipal cleaning. Dimensions: L 116 x D 71 x H 103 cm.

The **city cleaning trolley h951\_07** is the ideal ally for urban cleaning operations in outdoor environments and for intensive professional use. Thanks to its robust structure and **240-liter capacity**, this trolley is perfect for collecting large quantities of waste, supporting municipal operators and maintenance workers with efficiency and practicality. With **two bag holders**, it allows for waste separation for more organized operations in line with modern waste management needs.

The structure is based on **two axles** and features **four wheels**, including two at the front, with a **parking brake** to ensure stability during work breaks and loading. The wheels allow for smooth and safe movement even on irregular terrain. The **horizontal tool holder** offers space for four handled tools, while the **vertical pocket** adds additional capacity for long tools. The **lockable storage compartment** and the **open shelf** provide a safe and practical solution for storing tools and consumables.

The **height-adjustable handle** ensures optimal comfort for operators of different statures, improving ergonomics and reducing physical strain during prolonged use.

Simplify and improve urban cleaning with the **city cleaning trolley h951\_07**. Order now to optimize your team's productivity and ensure a clean and organized environment. Contact us for a quote!

### Technical features:

- **Dimensions:** L 116 x D 71 x H 103 cm.
- **Weight:** 25.2 kg.
- **Capacity:** 240 liters.
- **Wheels:** 4 wheels with parking brake, two at the front.
