

Cleaning bucket with 50L bag holder h422_51

Cleaning trolley with 28 L bucket with two handles. Dimensions: W.80xD.42xH.90 cm.

Multipurpose cleaning bucket in **PVS plastic**, i.e., **Second Life Plastic**, the first Italian and European environmental product certification brand that guarantees and makes goods obtained using recycled plastics more easily identifiable. The **polypropylene copolymer** components are **non-toxic and fully recyclable**. Lightweight, resistant to impacts, frequent use, and low temperatures. Frame built in a single piece, robust, solid, and **easy to clean**. Handle complete with reinforcements that facilitates the maneuverability of the trolley, equipped with a **dustpan hook**. Practical **50 L bag holder** with interlocking system without screws and with bag-holding arms. **28 L bucket** with **removable divider** that guarantees professional floor washing, thanks to the separation between the detergent solution and the rinsing water, achieving better washing results, greater hygiene, product savings, less working time, and less operator's effort. **Side-press wringer** without bottom that allows the rinsing of the fringe and its wringing to be carried out directly from inside the wringer, reducing working times and unpleasant dripping on the floor; equipped with a storage compartment, located on the back, for transporting bottles and various tools.

Technical features:

- Material: polypropylene copolymer,
- Handle complete with reinforcements
- Equipped with dustpan hook
- 50 L bag holder (bag not included)
- 28 L bucket
- Side-press wringer
- Storage compartment
- Dimensions: W.80xD.42xH.90 cm
