

Cleaning trolley h422_92

Professional 50L polypropylene trolley with double bucket, plate wringer and stackable frame. GPP compliant and latex-free. The **h422_92 professional trolley** represents an advanced technical solution for hygiene management in professional and healthcare settings. Made of **polypropylene copolymer**, the product stands out for its high resistance to mechanical impacts and chemical corrosion, while maintaining a lightweight structure that facilitates movement. The design focuses on operational efficiency: the stackable frame allows for optimized storage space, while the ergonomic quick-insert handle ensures a secure and comfortable grip during long work shifts.

Technical specifications

- **Material:** High-density polypropylene copolymer
- **Configuration:** Two 25-liter bucket system for liquid separation
- **Wringing system:** Integrated professional plate wringer
- **Frame:** Stackable structure to reduce footprint
- **Ergonomics:** Practical and manageable handle
- **Dimensions:** W. 40 x D. 73 x h. 87 cm
- **Safety and Regulations:** Latex-free product and compliant with Minimum Environmental Criteria (GPP)
