

## Cleaning trolley h422\_94

Professional washing trolley in polypropylene with 2 x 25L buckets and a plate wringer. Dimensions 82x41x84 cm. Latex-free structure for hospitals.

The professional cleaning trolley **h422\_94** is a high-performance washing system designed to guarantee hygiene and productivity in professional contexts such as offices, industrial facilities, and healthcare settings. The structure is made of **polypropylene copolymer**, a material selected for its high impact resistance and chemical stability against industrial detergents. The design includes a reversible handle that optimizes trolley handling even in narrow corridors or congested environments.

## Technical features

- **Material:** High-density polypropylene copolymer
- **Frame:** Stackable structure for storage space optimization
- **Capacity:** Double bucket system (25 liters + 25 liters) for separation of clean water and detergent solution
- **Wringing system:** Professional plate wringer included
- **Dimensions:** W. 82 x D. 41 x h. 84 cm
- **Health safety:** Certified latex-free product
