

Cleaning trolley h422_98

Professional copolymer polypropylene trolley for cleaning and waste. Dimensions 133x68x114 cm, flat press wringer and latex-free structure.

The **h422_98** multifunctional trolley is a professional mobile unit designed for sanitation and waste management in high-traffic environments. Made of top-quality **copolymer polypropylene**, the device offers high resistance to impacts and the corrosive action of chemical detergents. The integrated configuration allows for the simultaneous management of floor washing operations and waste sorting or disposal, optimizing workflows in technical and healthcare contexts.

Technical features

- **Material:** High-density copolymer polypropylene
- **Dimensions:** L. 133 x W. 68 x h. 114 cm
