

Cleaning trolley with 25-liter bucket h422_50

Mobile cleaning bucket made of recycled plastic, 25 lt capacity.

Trolley with bucket of 25 liters partially made with **PSV-certified plastic** components - Second Life Plastic: the first Italian and European **environmental certification** brand for products that guarantees and makes goods obtained with the use of recycled plastics more easily identifiable. The **polypropylene copolymer** components are **non-toxic** and fully recyclable. Made of polypropylene copolymer, a high-quality material: lightweight, shock-resistant, resistant to frequent use and low temperatures. One-piece frame, sturdy, solid and easy to clean. Equipped with a **storage compartment**, located at the back, for transporting bottles and various tools. **Ergonomic handle** to facilitate trolley steering, reduces bulk and simplifies rinsing and wringing operations. **Pressure wringer** ideal for washing systems with mops and fringes.

Technical features:

- Material: PSV polypropylene copolymer
- Dimensions: W.62xD.42xh.90 cm
- Plastic wringer
- U-shaped handle with reinforcements
- 25 lt bucket with handle
- Frame with 80 mm wheels

INFORMATION

- **Typology** Secchio per pulizia
- **Strengths** Secchio singolo
