

Clinic stool with backrest h448_94

Ergonomic medical stool with saddle seat and backrest. Adjustable height from 57 to 77 cm. Available in various colors.

The medical stool is ideal for furnishing clinics, hospital facilities, and private medical practices and is designed to ensure medical staff a **correct posture during working hours**. The product consists of a saddle seat with tilting movement upholstered in M2 flame-retardant eco-leather with a polyurethane interior, while the polypropylene backrest is upholstered in flame-retardant eco-leather

The nylon base Ø 540 mm with 5 swivel nylon casters provides stability to the entire product. The stool's height is adjustable via a **lever from 57 to 77 cm**, thus adapting to the doctor's needs.
