

Clinical stool with foot control h904_26

Professional clinical stool with backrest and foot control. W. 50 x D. 50 x h. from 58 to 83 cm.

Stool for hospitals, clinics, medical practices, outpatient clinics and emergency rooms designed to offer maximum comfort and functionality in healthcare environments. Made with a **solid metal structure** and an **aluminum base**, it guarantees stability and durability over time. The **height is adjustable**. The **foot control** allows it to easily adapt to the different needs of healthcare operators. Equipped with a **multi-position backrest**, this stool offers optimal back support, improving posture during prolonged use. The **seat is tiltable and ergonomic**, designed to provide maximum comfort even during the longest work sessions. Both, **seat and backrest**, are **padded with 2 cm thick semi-hard foam**, offering a perfect balance between softness and support. The **upholstery of the seat and backrest is available in different colors**. **Without armrests**, the stool allows for greater freedom of movement, facilitating medical operations that require precision and agility. This stool is the ideal choice for healthcare professionals looking for a versatile, ergonomic and durable product for their work environment.
