

Clock with NTP movement for operating room h775_19

Professional clock for operating room. Operation: NTP. Dimensions: W.460 x D.45 x H.147 mm.

Built-in operating room clock with sanitizable stainless steel case and glass protection, operating via 'Power over Ethernet' (PoE) via LAN connection.

The clock is equipped with a robust **stainless steel case** with mineral protective glass. It allows the display of hours, minutes, seconds, **with 7cm high numeric characters for hours and minutes, 5cm for seconds.**

The brightness is adjustable on four levels and the reading angle is 120°. The device can be silenced and programmed or set via two buttons. The digits are composed of 7-segment LED segments, each consisting of three LEDs. The power consumption is 55 mA.

Clock technical features:

- Digital LED clock in red
- Stainless steel housing (IP65, IK07) with mineral glass protection
- For indoor use
- Display of hours, minutes and seconds
- Character height: 7 cm (5 cm for seconds)
- Optimal reading distance: 30 meters
- NTP movement operation
- PoE power supply
- Recessed mounting with 4 holes
- Reading angle: 120°
- Silent operation
- Programming and setting via 2 buttons
- Digits consisting of 7 segments with 3 LEDs each
- Consumption: 55mA
- Operating temperature: from -5 to 55°C
- Weight: 2.2 kg
- Electrical protection: class 2
- Dimensions: W.460 x D.45 x H.147 mm

Separately, as an **optional extra**, it is possible to purchase the **back cover**, useful for protecting the clock from dust and humidity.

**Other LED colors are available upon request and quotation*
