

Coat rack with shelf for nursery school h172_196

Wooden coat rack for kindergartens with 5 PVC hooks, rounded rubber edges, wall-mounted. Dimensions 100x20x25 cm.

Coat rack specifically designed for school environments and playrooms, intended to allow children to store and keep their clothes tidy in an autonomous and safe way. The wooden structure guarantees solidity and durability over time, suitable for high-traffic educational spaces.

The product features all **rounded edges covered in rubber**, a solution that reduces the risk of accidental injuries typical of pediatric environments. Ideal for being **fixed directly to the wall**, it optimizes the vertical space of the classrooms.
