

Coat rack with shelf h927_11

100 cm polypropylene coat rack for kindergartens, equipped with 8 double hooks and top shelf, supplied fully assembled. The **coat rack with shelf** is a solution specifically designed for furnishing kindergartens, nurseries, and playrooms. The structure is designed to facilitate children's autonomy in managing their clothing, solving the need for order and hygiene in common areas. Thanks to the **8-station** configuration, it allows for optimization of wall space while ensuring each user has a dedicated support point for both outerwear and small personal items.

Technical features

- **Material:** high-resistance polypropylene, hygienic and easy to sanitize.
- **Configuration:** 8 double hooks for a total of 16 hanging points.
- **Additional surface:** integrated top shelf for backpacks, hats, or teaching materials.
- **Dimensions:** total length of 100 cm.
- **Customization:** wide range of colors available for chromatic integration in school environments.
- **Installation:** supplied already assembled to reduce setup time.
