

Coffin trolley with wheels h687_89

Folding coffin trolley in aluminium and stainless steel. Load capacity: 300 kg, 12.5 cm wheels and closed footprint of only 13 cm. Professional product Made in Italy.

The **h687_89 coffin trolley** is a technical folding support designed for the professional support and handling of caskets. Entirely **made in Italy**, the device combines an **aluminium frame**, which ensures extreme operational lightness, with **stainless steel** joints and handles for superior structural resistance over time. This trolley solves the logistical problem of storage on service vehicles, reducing its thickness to only **13 cm when folded**. Thanks to the integration of self-lubricating nylon and Teflon bushings on all moving parts, opening and closing operations occur with maximum precision and in total silence, respecting the solemnity of funeral and cemetery contexts.
