

Low barrier post with mobile base h16213

Low barrier post with retractable tape, with flat base and 2.30m tape. Stainless steel structure with customizable tape. For indoor use.

Mobile barrier post made of **stainless steel**, ideal for delimiting waiting areas and restricted zones.

The post, to allow maximum flexibility of use, features a **mobile base**, made of **rubberized cast iron** to protect the floor from scratches and potential damage.

To better adapt to the style of your premises, this product is available in satin and polished finishes, while the tape is made of a protective and stable fabric available in multiple colors.

This post is equipped with a practical **4-way system**, which allows for one outgoing tape and up to 3 receiving ports.
