

Design stanchion with flat base h16212

Queue management post with round stainless steel tube and flat rubberized cast iron base. Belt length: 2.30 m.

Mobile barrier post made of **stainless steel** ideal for delimiting waiting areas, entrances to theaters, cinemas, museums and banks.

The retractable belt mechanism features a slow-retraction system thanks to the integrated brake. The **safety terminal clip** of the belt consists of unbreakable plastic material. With the belt mechanism housed inside the post, the belt is protected from dirt, dust and wear.

The **post is 4-way**: one outgoing belt and three receiving ports. **Up to 3 belts can thus be attached to the same post.**

The **mobile post** is flexible and easy to install; it includes a **flat rubberized cast iron base** to protect the floor from scratches and potential damage.

The product is available in various finishes: polished stainless steel and satin stainless steel.

The belt is made of a protective and stable fabric and available in several colors (blue, dark blue, navy blue, green, olive, brown, orange, red, burgundy, neon yellow, gray, black, red/white striped or yellow/black striped).

Technical features:

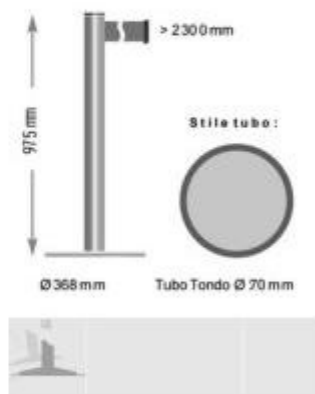

- Belt length 2.30 m

- Belt width 5 cm
- Available in multiple colors
- Total weight: approx. 9.6 kg
- Base weight: approx. 6.6 kg
- Tube material: Polished and satin stainless steel
- Base material: rubberized cast iron
