

Delimitation bollard h19133

Traffic bollard with tubular steel structure 3 mm thick and 100 mm diameter. Fixing: to be embedded.

Delimitation bollard ideal for use to prevent traffic in urban areas. Equipped with a **spherical aluminum terminal** with a shaped neck and **steel body**. The structure is finished with a special **anti-corrosion protection** that makes it resistant to rust and therefore to variations in atmospheric conditions. As standard, the bollard is equipped with **anti-rotation** to be **buried in the ground** by directly casting a portion of it in place.

Technical features:

- Diameter: 100 mm
- Total height: 1234 mm
- Height above ground: 1034 mm
- Underground portion: 200 mm
- Material: steel

- Fixing: to be embedded
- Weight: 13 kg

INFORMATION

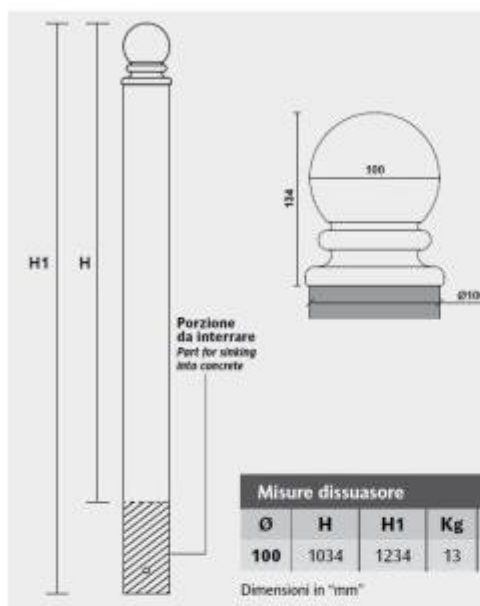

- **Material** acciaio
- **reflective band** no
- **Diameter** 100.000000
- **fixing** da inghisare
- **Typology** Senza anelli
- **Height in millimetres** 1034.000000
