

## Colored urban space planter h990\_04

620 L FRP planter for public spaces, UV glossy finish. Dimensions: W 100 x D 100 x H 70 cm.

The **colored urban space planter H990\_04** is an elegant and functional solution for **urban furniture**, designed to last in any outdoor context: **squares, avenues, public building entrances, shopping centers, schools, terraces, and equipped green areas**. Made of **FRP (fiberglass reinforced polyester)**, a lightweight yet highly resistant material, this planter combines contemporary aesthetics with structural robustness.

The **glossy external finish** is treated with **UV protection**, which guarantees the preservation of color and appearance even after prolonged exposure to the sun. Thanks to the reinforced fiberglass structure, the planter **does not deform, does not crack, does not rust, and does not fear humidity or thermal shocks**, making it perfect for permanent outdoor installations.

With a **capacity of 620 liters** and dimensions of **100 x 100 x h70 cm**, it is suitable for housing **trees, large shrubs, important floral compositions**, or **green dividing barriers**, also contributing to the delimitation and safety of public spaces.

It is **easy to install** and **simple to clean**, thanks to its smooth, non-porous surface. It requires no specific maintenance, making it particularly suitable for **municipalities, public bodies, and commercial businesses**. Available in **different RAL colors upon request**, it allows for perfect integration with any type of architectural context.

Shape your urban spaces with the large-capacity, robust, and customizable **colored urban space planter H990\_04**. Request your custom quote now and choose the color best suited to your project.

### Technical features:

- **Material:** Fiberglass reinforced polyester (FRP)
- **Capacity:** 620 liters
- **Shape:** square
- **Finish:** Glossy with anti-UV protection
- **Structure:** Waterproof, anti-corrosive, non-deformable
- **Resistance:** To weathering and impacts
- **Cleaning:** Smooth, washable surface
- **Maintenance:** Not required
- **Installation:** Simple, without the need for masonry work
- **Colors:** Available in various colors
- **Dimensions:** W 100 x D 100 x H 70 cm

### User benefits:

- **Large capacity:** (620 liters) for medium-to-large plants and trees.
- **Extreme resistance:** to atmospheric agents, even in critical conditions.
- **Refined aesthetics:** thanks to the customizable glossy finish.
- **Zero maintenance:** ideal for public and high-traffic spaces.
- **Material:** lightweight yet robust, easy to transport and position.

### FAQ:

**1. Is the planter suitable for trees or large shrubs?**

Yes, thanks to the 620-liter capacity and the strength of FRP, it can safely house substantial vegetation.

**2. Can it be left outdoors all year round?**

Yes, it is resistant to rain, frost, sun, and aggressive atmospheric agents.

**3. Is it possible to customize the color?**

Yes, various RAL colors are available on request to adapt to any context.

**4. How is it cleaned?**

The smooth and waterproof surface is easily cleaned with water and neutral detergents.

**5. Is maintenance needed?**

No, it requires no special maintenance over time.

**Mini buying guide:**

When choosing planters for public spaces or commercial areas, it is essential to opt for **resistant materials like FRP**, which combine **lightness, strength, and durability**.

Large planters (like H990\_04) are ideal for containing **voluminous plants or acting as dividing elements**, making the environment more organized and pleasant.

The **customizable glossy finish**, combined with **resistance to impacts, frost, and UV rays**, makes them perfect for permanent installations, without the need for maintenance. A safe investment for **municipalities, hotels, architects, and landscapers**.
