

Colorful toy train for children's play activities h735_33

Modular structure composed of cute colorful wagons. Product certified UNI EN 71/1-2-3-8.

The **train tunnel** is a modular structure composed of **8 colorful wagons**, equipped with **single and double windows**, **8 bases** and **2 front panels**. Made of **high-resistance plastic material**, whose colors guarantee brightness and brilliance even after long-term exposure to UV rays and atmospheric agents. By interlocking and hooking the various elements, it will be possible to build a large tunnel that children can pass through in total safety, at the base of which a sturdy foundation supports them during the journey. Of **quick** and immediate **assembly**, it will be possible to position the train tunnel on any surface, creating pleasant outdoor combinations.

Technical features:

- 8 wagons (8 lati con 1 finestra, 8 lati con 2 finestre e 8 basi)
- 2 front panels
- Overall dimensions: L. 524 x D. 70 x h. 84 cm
- Safe, solid and sturdy
- Made of high-resistance plastic material
- Assembly by interlocking and hooking modular elements
- Compliant with UNI EN 71-1/2/3/8
