

Column ash tray h140237

Outdoor ash tray with **post** made of galvanized steel and stainless steel cigarette extinguisher. Fixing: to the ground.
Dimensions: **W.12.5 x D.15 x h.101 cm.**

Ash tray intended for **outdoor environments**, resistant and practical to clean; ideal for placement near gyms, swimming pools, cinemas and shopping centers.

Robust structure equipped with a **support post in square tube** of galvanized steel with a shaped cap at the top. Ash tray consisting of a rear box in galvanized sheet metal, container with **rounded edges** at the front and micro-perforated plate for extinguishing cigarettes in polished AISI 304 stainless steel. The bottom is in **galvanized steel sheet with holes** for the drainage of rainwater. Container emptying operations are facilitated by loosening the **specific Allen screw** which allows for the extraction of the container. **Ground anchoring** is achieved by extending the post underground. The painting technique used is **thermosetting powders** with oven baking, which provides greater longevity to the product by applying a paint layer of 60 microns.

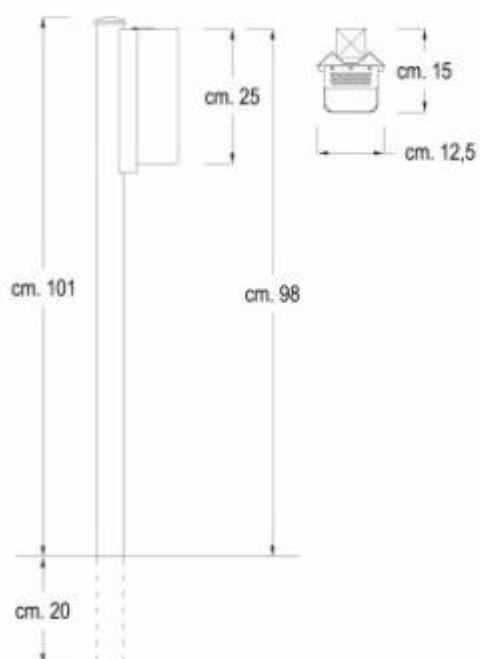

Technical features:

- Support post in square galvanized steel tube mm. 50x50x1.5
- Rear box in galvanized sheet metal, thickness 12/10
- Shaped container in galvanized sheet metal, thickness 15/10
- Cigarette extinguisher in polished AISI 304 stainless steel
- Bottom in galvanized sheet metal with holes for water drainage
- Emptying by screw
- Available finishes: embossed rust/ stainless steel
- **Fixing: to the ground**
- Width: 12.5 cm
- Depth: 15 cm
- Height above ground: 101 cm
- Underground part: 20 cm
- Ash tray height: 25 cm
