

Column-mounted metal cigarette bin h14044

Column ash tray in metal for public spaces. Available in the version for embedding or for bolting. **Italian product.**

Column-mounted cigarette bin in metal for public spaces. **Italian product.**

Emptying based on simply unscrewing a screw. The entire structure is galvanized and oven-painted with epoxy powder in "brilliant aluminum" color, suitable for outdoor use and **weather-resistant**.

In addition to its functionality, the cigarette bin is also aesthetically pleasing. The adjective that best describes this handcrafted product is **linear**. The stem is entirely made of round galvanized steel tube; furthermore, its unique feature is having a removable **cylindrical container** in galvanized steel, equipped with a slot for the introduction of cigarettes only.

At the top, the container is equipped with a **semi-spherical steel cap**. Its fixing is carried out either by embedding in the ground or via a circular plate. Easy to place at the exit of restaurants or coffee houses thanks to its natural simplicity.

Stem:

- in round galvanized steel tube ? 114 x 2 mm;
- removable cylindrical container in galvanized steel, equipped with a slot for cigarettes only. At the top, the container is equipped with a semi-spherical steel cap.

Emptying:

- releasing the screw, removing the upper support and extracting the container

Finish:

- galvanized and oven-painted structure in "brilliant aluminum" epoxy powder

Fixing:

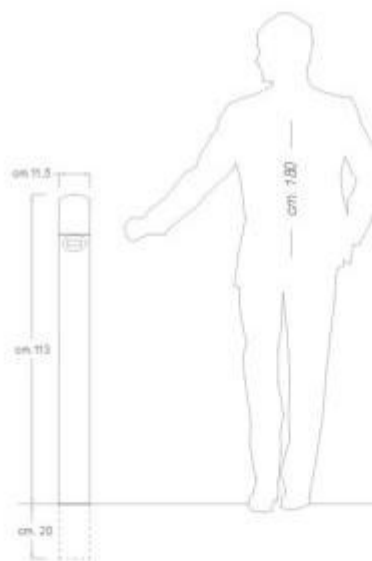

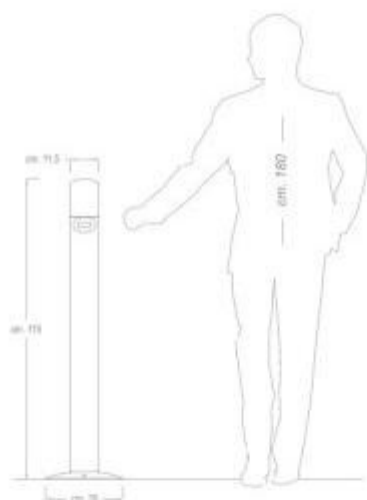

- base equipped with a plate with holes for anchoring to the ground by means of anchor bolts and expansion plugs - Total height: 115 cm - Base diameter: 30 cm
- by extending the stem into the ground - height above ground: 113 cm - part to be buried: 20 cm

Dimensions:

- Capacity: 1.5 Liters
- Stem diameter: 11.5 cm
