

## Compact recycling bin with two compartments 2 x 45 l h719\_20

Recycling bin 2 x 45 l. Color: soft mocha. Dimensions: h 975 x w 620 x D 320 mm.

**Recycling bin** for hotels made of **galvanized sheet steel** with **high-quality powder coating**. **Robust** and **resistant** to impacts and scratches, the container is equipped with **two internal galvanized steel waste bins** with **capacity 2 x 45 l**. On the upper part of the structure there is a **swing lid** consisting of **two self-closing flaps** in **stainless steel** with grain structure. The two internal containers are easily emptied thanks to the **hinged doors** on the front closed with a **square lock with key included**. The doors feature **ergonomic semi-circular handles in stainless steel**. The stability of the bin is guaranteed by **two adjustable feet** in the front part that allow placement even on uneven areas. The entire structure is **fireproof**, classified as **non-flammable** (DIN 4102, fire protection class A1). The color is **soft mocha**.

### Technical features:

- Dimensions: h 975 x w 620 x D 320 mm
- Material: high-quality powder-coated galvanized sheet steel
- No. of internal containers: 2
- Capacity: 2 x 45 l
- Color: soft mocha
- Stainless steel swing lid with grain structure consisting of 2 self-closing flaps
- Hinged doors with square lock closure (key included)
- Ergonomic semi-circular handles on hinged doors
- No. 2 adjustable front feet
- Fireproof, impact-resistant and scratch-resistant structure
- Warranty: 5 years
- DIN 4102, fire protection class A1
- TÜV certified product

- Height in millimeters 975.000000
- Capacity 2 x 45 lt
- Width in millimeters 620.000000
- Material galvanized steel
- Depth in millimeters 320.000000
