

Compact waste recycling container with two flaps h719_12

Waste recycling bin with 2 compartments and self-closing flaps. Capacità: 1 x 30 l; 1 x 60 l.

Compact container for sorting **two types of waste** in indoor environments such as università, studios, offices, companies, gyms or public facilities. Its **light grey RAL 7035** color makes it a perfect piece of furniture, suitable for any environment. Its material, **galvanized steel sheet with high-quality powder coating**, ensures **robustness and solidity**. The structure is **fire-resistant** and consists of **n.2 compartments** each containing an **internal galvanized steel sheet container**, of different sizes, with **capacità 1 x 30 l and 1 x 60 l** and **two upper self-closing flaps** in anthracite and blue. The internal containers can be emptied by opening a **recessed swing door** built into the front of the structure, equipped with a **square lock with key included**. The stability of the two-compartment bin is guaranteed by the presence of **two adjustable feet located at the front**.

Technical features:

- Material: galvanized steel sheet with powder coating
- Dimensions: h 920 x w 580 x D 380 mm
- First container capacità: 1 x 30 l
- Second container capacità: 1 x 60 l
